

Warland Reserve – Victor Harbor Sunday 11th April 2010 10am – 4pm

The Energy Fair offers you an opportunity to promote your business while providing an attentive market place with an up-to-date understanding of the rapidly expanding alternative energy market.

The Energy Fair attracts youth, their parents, farmers and landholders from regional, rural and urban communities. The time has never been better to look closely at energy alternatives.

Energy Fair exhibits include:

- Hands on solar/wind energy displays
- Latest information on how you can own your own energy sources
- Water Conservation technology
- Human, Powered, Electronic, Solar and Hydrogen vehicles
- Alternative energy competitions
- Electric Cars and Bikes
- Free energy audit advice – does your home qualify as footprint zero
- Latest state and federal government renewable energy rebates
- Your carbon footprint and how to decrease it
- Alternative energy vehicle road endurance trials

Thousands of Energy Fair visitors will provide you with a busy marketing and communications platform that allows your business to:

- Showcase and profile your products
- Strengthen your brand name
- Find new business
- Launch new products

To participate please complete the registration form – or for more information visit the web site: www.energyfair.com.au or call Carol Schofield Project Manager on 08 8552 9412 Email: galloway21@bigpond.com.
